

## **Cheadle Hulme Cricket Club**

### **Juniors Showering & Changing Guidelines**

For players under the age of 18 who are playing in adult teams, the following policy applies:

- Mixed gender teams must have access to separate male and female changing rooms.
- If adults and children need to share a changing facility, the club must have consent from parents / carers that their child(ren) can share a changing room with adults in the club but it would be preferable for the children to change either at a different time or at home.
- Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms.
- If children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. We suggest instead that they may change and shower at home.
